CITY COUNCIL ACCEPTS BID OF H. H. LARSEN COMPANY BY UNANIMOUS RESOLUTION

WPA Grant Pays 45 Per Cent Of Construction Costs

Bonds have been sold. Construction contract is let. City offices are preparing to move out of the old city hall. In two or three weeks work will actually start on the two-story modernistic structure pictured at the left.

In business session Monday evening the city council unanimously passed a resolution accepting a bid from H. H. Larsen Co. to build the new city hall. Larsen's bid of $43,223 was the best of ten submitted.

The new hall to be located on the present city hall site plus the corner lot at Wellington avenue and Irvington street will be constructed under federal supervision as a WPA project. An outright grant in the amount of 45 per cent of the bid will aid building costs.

Two stories high, the hall will house council chambers, city offices, jail, vaults, store rooms. W. H. Toepke, city architect, has created an exterior design for the hall which embodies strong clean lines and plain yet beautiful decorations.

H. H. Larsen's bid was well under engineer's estimate of construction.

PETITION

A petition signed by 173 residents of the southern portion of Daly City protested certain conditions at the Golden Gate Atlas Materials Company plant at Junipero Serra boulevard and School street. Officials of the company explained that reconstruction work at the plant had not been completed and that when such work was finished there would be no objectionable noise or dust. They also stated the plant would be artistically housed and the grounds adjacent would be landscaped.

Upon such assurance petitioners did not press their complaint. A rep-

WORLD NEWS IN REVIEW

BLACK SATURDAY

The world totters this week between peace and war. Hitler's deadline, tomorrow, to march into the Sudeten portion of Czechslovakia and annex territory by force is being referred to as Black Saturday.

If the Germans march, experts agree, it will be a signal for another world war. It is predicted that within 30 days, Germany, Italy and Japan will be locked in deadly combat with Britain, France and Russia. Observers say the United States and lesser powers will not be able to maintain neutral status.

ON LESSER FRONT

War-torn Spain became a mere spectator last week as both belligerent armies virtually halted their small-scale war to watch the deepening European crisis. Leftist authorities believed that both sides in Spain would be weakened by a general European war, the Rightists because Germany and Italy would withdraw their generous aid from Generalissimo Franco, the Leftists because not only would they have little chance of receiving further Soviet aid, but Britain and other maritime powers would commandeer for their own use the tramp steamers which now run food and gasoline to Barcelona and Valencia.

JAPAN IN CHINA

Japan's plan to capture Hankow, China's acting capital, is first to cut all the city's communications, then gradually encircle it. Last week, a Japanese column tightened the net around the capital by capturing strategic Hwangchwan, north of the Yangtze Another column captured one of a series of river booms at Wusueh, 100 miles down the river from Hankow. Meanwhile, Japanese aviators bombed away at their main objective, the Canton-Hankow Railway.

Since the start of the 14-months-old war this line has been bombed in 1300 places. Speedy repair work has held the periods of service interuptions to a minimum, and last week trains were still running, albeit irregularly. Most remarkable testimony to Chinese ingenuiety was that 680-mile run from Canton to Hankow has been shortened to 36 hours instead of the old 45-hour schedule. Moreover, in spite of war, and because of heavy war supply shipment, the line made money; net profit last fiscal year was $4,000,000.

Unnoticed amid frenzied Europe, the League Council this week finally agreed to take the first of many

CHAMBER OF COMMERCE BOARD WILL BE ELECTED AT REGULAR MEET WEDNESDAY NEXT WEEK

Plan To Push Membership Mark To 150 In Campaign Drive

Daly City Chamber of Commerce will hold its last quartely meeting of the year Wednesday evening in the Theater Social Hall.

Election of officers and planning of fall activities will be chief items of business. The nominating committee submitted, last week, the names of A. Gaggero, A. Conci, J. Sireix, E. Keighly, Fred Knoll, B. L. Meritt, Paul Selmi, R. L. Crane Jr. and A. Bulf as members of the 1939 board of directors.

No further nominations were submitted before Wednesday this week, hence the above named group will be elected to fill next year's posts. Members of the board represent every group, interest and section of Daly City. They belong to varied business concerns, labor unions, schools, civic and social organizations.

Two outstanding speakers will be present at the Wednesday evening meeting. H. H. Mylander, representative of the western division of the U. S. Chamber of Commerce, will make an address on C. of C. activities, programs and problems. The Golden Gate International Exposition is sending a representative to show an entertaining series of slides on progress of Treasure Island.

MEMBERSHIP

A chamber of commerce membership committee will conduct a short snappy membership drive early next week. It is expected to push the membership from its present 110 high to a peak of 150.

Any local resident, particularly business persons, is invited to file an application for membership. Application blanks may be had by telephoning or writing to the Daly City Record office.

Recreation Dept. Grows

That the Daly City Recreation Department is headed for unqualified success is evident from progress that is being made.

A vacant store at 6270 Mission street has been secured and will be used as a wood work shop for boys and girls interested in handcraft of that nature.

Permission to improve the Los Banos avenue horseshoe courts has been granted by the property owner. Top soil is to be spread and five model courts will be laid out in the immediate future.

Out of the total Daly City population there is an actual enrollment of 1781 children and adults on the recreation department roster. For the month ending September 15 there were 16,000 participants (day by day totals) in the varied activities at recreation centers.

PLAYGROUND

In The Record last week the recreation department stated that it proposed to make immediate installation of playground equipment on city property at Acton and Brunswick streets. Before this equipment is installed, the city engineer recommends that the property be graded. This work will be done within the next few days. Equipment will then be installed and activities at the new center will soon be in full swing.

CITE DILEMMA OVER DISPOSAL OF HOG SEWAGE

County Engineer Prepares To Make Immediate Survey

San Mateo County was faced with a dilemma this week over the problem of disposing of the effluent from Colma hog ranches according to C. G. Gillespie, chief of the State Bureau of Sanitary Engineering.

Gillespie disclosed that plans to divert the hog-ranch run-off from Colma Creek to the Colma sewer system would probably be blocked by a protest from San Francisco's health director, Dr. J. C. Geiger.

Gillespie said that the Colma Daly City and Vista Grande sewers are discharged through a $10,000 flume originally constructed by Spring Valley Water Co. to carry the overflow from Lake Merced to the ocean.

EACH THREATENED

Raw sewage discharged through the flume empties on to a public beach, Gillespie said, and has resulted in numerous complaints. Addition of hog ranch effluent to the discharge would aggravate the problem seriously, the state bureau head declared.

Meanwhile County Engineer U. S. Marshall was prepared to start work immediately on a survey of the collection system planned for the hog ranches. Acting on protests from

Passing Or Meeting School Bus Drive Carefully

The record of safe transportation in school buses in California has been excellent for several years but far too many school children have been killed or injured by careless motorists who disregard the law which requires that all operators of motor vehicles shall stop when approaching a school bus that has stopped to receive or discharge passengers, and then to proceed at not more than 10 miles per hour.

At the recent Western Safety Conference the fact was stressed htat motorists often fail to realize that this regulation applies to the passing of a school bus in either direction. Section 533 of the California Vehicle Code expressly states that the driver of any vehicle upon a highway outside of a business or residence district upon **meeting** or **overtaking** any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall bring such vehicle to a stop immediately before passing said school bus but may then proceed past such school bus at a speed not greater than is reasonable or proper but in no event greater than ten miles per hour with due caution for the safety of pedestrians.—San Mateo County Traffic Safety Commis-

To Acquire Right-of-way

Clearing the way for another link in the Peninsula's ultra streamline arterial, Junipero Serra Highway, the San Mateo County Board of Supervisors recently authorized the commencement of eminent domain proceedings in behalf of Joint Highway District No. 1 calling for acquisition of 5.926 acres of highway right-of-way through the Buri, Buri Ranch.

This new Serra link will extend immediately southwest from the present terminus at Cypress avenue and will carry the arterial partially through the Millbrae Highlands District. The resolution had been previously passed by the San Francisco Board of Supervisors.

The right-of-way, already surveyed, will be 152 feet wide.

County Praised For Road Zoning

San Mateo County highway zoning and planning is given high praise in the July quarterly bulletin of the American Nature Assn., in which the progress of highway zoning in the state and the regulation of billboards is discussed.

The county is termed "unquestionably the leader in county planning achievement in California." The County Planning Commission is praised for its zoning plan to provide protection of urban zoning for unincorporated towns and rural areas, and to protect scenic areas, and to protect highway sections.

One way to start Light Conditioning is to replace every burned-out or blackened bulb and fill every empty socket with a bright, new MAZDA lamp. Use MAZDA Three-Lite bulbs in your three-light Better Sight Lamps and fixtures.

Every lamp that is used for reading, studying, or close seeing work should be equipped with at least one 150-watt or a three-light MAZDA lamp bulb to provide plenty of light for safe seeing.

Millions of families are now using Better Sight Lamps of this type. Equipped with a 150-watt or a three-light MAZDA lamp bulb an improved lamp like this actually gives far more useful light for the same current than many old-fashioned, dark-shaded reading lamps.

TO BUILD NEW NAVY DIRIGIBLE AT SUNNYVALE

Supply Base Will Probably Be Located At Oakland Or Mare Island

Congressman John J. McGrath recently made two predictions, following the departure of five members of the House Naval Affairs Committee which inspected naval stations in the bay area.

1. The proposed navy dirigible will be coustructed and housed at Sunnyvale.

2. The navy supply base will be located either at Mare Island or Oakland.

"I believe San Francisco's India Basin site is losing out," the congressman declared, "but the Mare Island people are making a strong showing. In any event, the issue will not be decided until Congress meets again next year."

Regarding the use of Moffett Field for construction of the new navy dirigible, McGrath said he received assurances from the committee that their recommendation would be favorable.

"Every time the 'Hindenberg' landed at Lakehurst, the navy turned out 250 sailors to land the airship and supplied the hangar. If the navy can give Lakehurst to the Germans, surely the War Department can use Moffett Field for the U. S. A.," McGrath declared.

Use of the Sunnyvale hangar would save $500,000 in construction costs, he predicted.

JEWS CELEBRATE DAWN OF NEW YEAR—5699

Ushering in the year 5699 of the Hebraic calendar, Jewish people throughout the world recently began a ten-day period of traditional devotion ending with Yom Kippur, Day of Atonement. Rabbi Elliott M. Burnstein of Temple Beth Israel, San Francisco, is pictured as he appeared in his pulpit during Rosh Hashonah, Jewish New Year. On the altar lies the sacred shofar, or ram's horn, which summons the faithful on holy days. Behind the rabbit is the Ark of the Covenant, holding the Torah, or scroll, of the law, from which he reads during the ancient ritual.

Grammar School Pupils On Outing

Last Friday morning at 9 o'clock the Jefferson eighth grade pupils, accompanied by their teachers, left school for a day to be divided between education and recreation activities.

The forenoon was spent in making a thorough tour of Fleishhacker Zoo, seeing the many different kinds of animals and noting the countries from which they were brought.

This interesting visit was followed by a trip to the beach and a hike along the ocean. The group ate lunch on the beach. Games on the sand, wading, visits to the Fleishhacker concessions, a baseball game, and for some, swimming in the world's largest outdoor pool completed an afternoon of enjoyment.

Mr. Ferguson spoke of the great problems confronting education. He stated that it was the duty of the school not alone to teach the necessary subjects, but to build strong individual characters, that the world will recognize, strong characters to withstand the storm and strife of trying times.

Mr. Moseley, instructor of industrial arts, displayed some of the articles made in the adult metal class, held every Tuesday and Thursday evenings at the high school. Any one interested in this work may register at the high school.

New members and visitors were introduced.

Following the meeting refreshments were served in the new cafeteria by Mrs. Hollingsworth and Mrs. Bentley.

LEFT AT THE POST

When it comes to achieving "self-earned social security," the American people leave the rest of the world at the post.

The figures show, for example, that there is about three times as much life insurance in force in this country as in the United Kingdom; about thirty times as much as in Japan, and about sixty times as much as in Sweden.

Activities Started At S. M. Jaysee

San Mateo Junior College gridders start their fall football season by playing the powerful Santa Clara frosh eleven this evening at Santa Clara. In addition the soccer men start their tilts with a match Saturday against San Jose State's varsity.

For the second year in succession jaysee students have won honors in the national engineering drawing competition. Charles Worsley and Douglas Wilkins won awards with their work which competed against a number of entries from universities.

So successful was the idea of having a cooperative house for men students last semester that this term additional facilities were provided by opening two houses. For a small sum the student rents his room, and by cooperative cooking he may have inexpensive meals.

Mrs. Sarah Boynton, one of the students to graduate in the first class at jaysee, recently returned to take art work. Since her graduation she has traveled in Russia and studied at Berkeley where she engaged in crime prevention work.

WELCOME, BOOMERS

Experts in the technical phases of unemployment shake their heads over the eternal problem of the migratory worker. Moving about in great numbers, seeking seasonal work, toilers are frequently left stranded when temporary jobs end, and become problems to themselves and the community.

Near Redding, however, a brigade of specialized migratory workers is forming to help an army of Californians build the $36,000,000 dam—key structure of the Central Valley Water Project. But these builders—steel-muscled, bold-eyed—present no problem. Each is trained in a highly specialized job. And they call themselves "boomers." They were at Grand Coulee. They were at Boulder Dam. When the Shasta dam is complete, most of them will move on—for the work of harnessing nature for man's service is endless.

Meanwhile, Californians are glad to have them with us, helping to build California. Welcome, boomers.

LETTERS FROM THE PEOPLE

(Editor's note—Letters From The People is a new feature sponsored by The Record for the particular purpose of giving local citizens a medium through which to express their ideas and opinions. The editors believe that Daly City residents do have well formulated and intelligent judgment in regard to important local and world affairs of the day.

What of the war crisis in Europe? What attitude should United States citizens take in regard to European problems? What is the amount of our national debt and how is it going to be paid? Will "Ham and Eggs" mean ham and eggs or a scramble? Who are candidates to be voted for November 8 and what are their qualifications? What degree of hazard does Woodrow Wilson School No. 1 present to children and teachers, . . . These and hundreds of other questions should be of vital interest to local citizens. Letters From The Peope is a column particularly dedicated to the purpose of asking, answering and discussing vital current issues. The editors invite you to participate in it.)

The following is a recent letter received by Fire Chief Chesney:

technical steps which would be necessary to invoke "Sanctions" against Japan, no longer a League member. The step: inviting Japan to take a seat at the Council table. Geneva experts said that, if Japan sends a refusal, more drastic steps could then be taken, but that if Japan simply never sends a reply, this would create a puzzling situation which the Council would then attempt to solve Afraid Czechoslovakia would ask the Council to take the first Sanctions step toward Germany this week, Poland, a member of the Council, declared that she deemed the sanctions provisions of the League Covenant optional.

PEACE AT HOME

Pacific Coast waterfront employers and the Committee for Industrial Organization Longshoremen's & Warehousemen's Union. last week announced they were in complete agreement on all contractual issues for 1938-39. They prepared to ratify the pact, which virtually assured waterfront peace during next year.

The contract was the final working agreement negotiated between employers and unions representing maritime and dock workers. It will cover a one-year period starting today.

As many as 250,000 hungry sightseers can be accommodated in comfort for one or more repasts during the day or night at the New York World's Fair 1939 in the 80 restaurants which are to dot the grounds.

CIVIC PROGRESS

By Mayor Selmi

Paul G. Selmi

It has given me a great deal of pleasure recently to see the enthusiasm with which residents of the southern portion of our community have greeted proposals for street work in that section. Those citizens deserve sincere praise for the excellent spirit of cooperation which they have displayed in expressing a desire to proceed immediately with the work.

An application for a federal grant has been made to help pay construction costs. I shall continue my effort to hurry procedure and get work started at the earliest possible date.

Continuing our policy to encourage stable and orderly growth of Daly City, I am happy to announce several current proposals which will make this city a still more attractive residential district.

I have proposed a bus line from Daly City to the western terminus of Twin Peaks Tunnel. Local residents could travel from their homes to Fifth and Market in approximately 25 minutes via the proposed bus route and municipal car lines through the tunnel. We are developing our recreational facilities, building a new city hall—increasing public services and developing greater civic interest and pride among our citizens. Last, but not least, I have encouraged contractors to open up residential tracts here and construct first class homes to attract a most desirable class of people to come and be our neighbors.

PLEASE BE KIND! May I ask our citizens to please be kind in their criticism of city officials in not making faster civic progress and in not immediately taking care of every situation or condition which may make for a bit of unpleasantness to someone.

Public servants in Daly City are happy to receive constructive criticism and helpful suggestions. We are continuously working for the welfare of our community and its people, but remember, it takes time to build a city and we can develop plans only as fast as public money is available to carry out such proposals. We can eliminate or correct unwanted conditions only as rapidly as cooperation is forthcoming from the citizenry to detect and help solve such problems.

Top Flight Shows Come To Theater

"A 3-BELL PICTURE!"

Jimmy Fidler, famed motion picture commentator, says of "Having Wonderful time:"

"Chuck full of laughs, and filled with summer romance—here's a movie to please the most discriminating fan. It's timely too—because it's based on a late summer vacation of a working girl. I enjoyed this picture for many reasons. First, because it's true to life. The comedy situations aren't forced or slapstick—they're things that really happen—I also enjoyed seeing Ginger Rogers teamed with Douglas Fairbanks Junior. This picture definitely adds new glory to their crowns. . . . For a lot of fun and hectic romance that sails through rough waters, I recommend "Having Wonderful Time."

"White Banners," second feature coming to the Daly City Theatre Sunday, Monday and Tuesday, is a picture with universal appeal. Laid in the 1920's, it tells the story of a typical small town American family, discouraged by depression. How they weather this and get a new start in life is a thrilling story that will go straight to the hearts of America.

PLAN $50 000 RADIO BEACON ON PENINSULA

Proposal To Open Recreation Center At Coyote Point Is Still Considered

Forty acres of Coyote Point and tidelands will be purchased by San Francisco Public Utilities Commission for construction of a $50,000 radio beacon, it was announced this week in San Francisco by Public Utilities Commission Manager Edward Cahill.

At the same time Cahill assured San Mateo County that there would be "no conflict of interests" between San Francisco and San Mateo Counties over the land, part of which is being purchased by the county as a recreation center.

The beacon will be located a quarter of a mile off shore, Cahill said. It will be used to guide airplane pilots on the San Francisco-Los Angeles flight. The beacon sends out intermitent signals which enable the airmen to follow the beam like an imaginary line on the route.

The only other such radio beacon in the Bay area is near Tracy, Cahill said, and functions in cooperation with the Oakland Airport.

FORGIVE

"For if ye forgive men their trespasses, your heavenly Father will also forgive you." (Mt. 6:14)

In the long ago, the law of retribution was "an eye for an eye" and "a tooth for a tooth," but in this, the Christian Age, a better law has been given to men.

God has reserved unto himself the right to revenge, and His children must be guided and directed by His law. All men have fallen short of the glory of God and He has said that if one wishes forgiveness of his trespasses, he must first forgive his fellowmen of their evil doings.

Men are instructed to forgive each other, not only that the one who does the forgiving may be benefitted, but that the fallen one may have another chance to arise and walk in a purer life. And, unless one is an ingrate, he will welcome this opportunity to restore his state of felicity among his fellows.

Unthankful would one be indeed, who refused to change his manner of life and continued to transgress after he had been repeatedly forgiven by his friends and acquaintances for things that he had done amiss.

When one asks forgiveness for his dark deeds, he should be forgiven, that the checkered lives of both forgiver and forgiven may be cleaned white by the Giver of all good.

To Establish New Fire Station

County Fire Warden Bert L. Werder this week announced the establishment of a new county fire station at Pescadero to protect the south coast community as well as the valuable stands of timber, including the Pescadero and Butano Creek areas.

The area was served formerly from the La Honda and Redwood City stations, the run from Redwood City requiring 55 minutes at top speed, Werder pointed out.

In charge of the new coast fire unit is Pat O'Shea, deputy fire warden, who has two men and a fully-equipped fire truck. For the present, Werder said, the station would be housed in temporary quarters in a Pescadero garage building. The county is preparing to construct a new fire station near Pescadero but not in the town proper, he said.

be offered at this year's event but also in the new design and colorful attractiveness of the spectacular 1939 models," said Dealer Association President, Glen Stater.

Advices from the motor centers of the East and Middle West indicate that the new 1939 models will offer many changes in design, in line and in appointments and there are well authenticated rumors to the effect that prices on the new models will, in many cases, be most attractive and set new dollar for dollar values in automobile buying that it is expected will start the 1939 selling season with a rush not enjoyed for several years past.

Local dealers and distributors are all ready to secure exceptional feature exhibits from their factories for the San Francisco Auditorium display. There will be a number of cut-open chassis, several spectacular moving exhibits and a number of interesting motion picture shows.

According to present reports all of the new 1939 models will be on the Coast by the time of the opening of the show and will thus afford the San Francisco and Northern California motoring public with an opportunity to view all of the new cars at one time under one roof.

Bible selections will include the following passage from Isaiah 41: 11—13: "Behold, all they that were incensed against thee shall be ashamed and confounded: they shall be as nothing; and they that strive with thee shall perish. Thou shalt seek them, and shalt not find them, even them that contended with thee: they that war against thee shall be as nothing, and as a thing of nought. For I the Lord thy God will hold thy right hand, saying unto thee, Fear not; I will help thee."

A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which reads as follows: "In the vast forever, in the Science and truth of being, the only facts are Spirit and its innumerable creations. Darkness and chaos are the imaginary opposites of light, understanding, and eternal harmony, and they are the elements of nothingness" (p. 479).

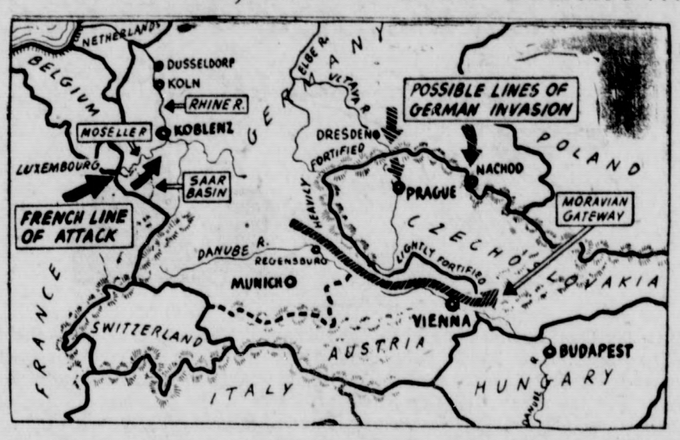
CZECHS CAN BEAT HITLER IN WAR, SAYS GEN. BARROWS



This map explains how Major General David Prescott Barrows, former commanding general of the 40th Division, believes France could successfully attack Germany and how the Czechs could hold the mass of her army in a central position and halt any nazi invasion. General Barrows said: "Germany's easiest entry is probably through Hungary, through the Moravian gateway. That entry, however, would expose her long line of communication to Czech attack."

"Czecho-Slovakia is in a tremendously stronger defensive position than the world realizes," Barrows said, "with powerful fortifications added to natural mountain barriers placed athwart to any German military effort."

Jeff Gridders Tie With Santa Rosa

Jefferson Indians played the Santa Rosa eleven there Friday to a 12-12 tie.

The local gridders scored first by driving down the field and going over the line with Tony Compagno carrying the ball from the two-yard marker.

Santa Rosa players passed their way to a pair of touchdowns. In the fourth quarter the Indians scored a second time.

FROSH-SOPH GAME

Jefferson's frosh-soph football team was beaten by Balboa's team Monday. Jefferson's line was steady but the backfield had difficulty in pass defense.

The Buccaneers made touchdowns on two long passes, and a long run. Scoring passes were good for 40 and 50 yards each. The run was a spectacular one of 80 yards.

Jefferson's papooses showed power in a sustained drive that netted them a score. Starting from a kickoff the local players ruled off yardage after yardage. They went the entire length of the field for their single goal.

A game is scheduled with the Buccaneers at Jefferson next Monday.

CITE DILEMMA OVER DISPOSAL OF HOG SEWAGE

County Engineer Prepares To Make Immediate Survey

(Continued from Page 1)

South San Francisco, which objected to the malodorous hog ranch runoff in Colma Creek, which passes through South San Francisco's Orange avenue park, Marshall and Dr. Charles C. Gans, county health chief, devised a plan whereby the hog ranchers would pay for a collecting mains, a pumping system, and a service charge to the Colma Sewer District for use of its mains.

THREE REMEDIES

According to Gillespie, however, both Colma and Daly City face a serious problem without the addition of the hog ranch run-off, and may be forced to take corrective action immediately at heavy expense. Gillespie said there were several possible remedies. He suggested:

1. Plants to intercept and treat the Colma and Daly City sewage before it reaches the water company flume.
2. Partial treatment of sewage and extension of the outfall across the beach to deep water.
3. Diversion of the sewer outfall to the bay at South San Francisco, which would require revamping of the sewer system in the north end of the county, collect sewage from Lawndale, and provide South San Francisco with a much-needed new main outfall.

Full grown trees were planted at the rate of 50 a day to beautify Treasure Island for the California World's Fair.

Joe Doakes and His Girl Want The Earth....And They Get It!

With Joe Doakes and his girl things aren't so hot. Work hasn't been regular, and wherever you look there's plenty of trouble. They've been pushed around a lot, and they're bewildered because things just don't seem to add up anymore.

"Come on, Marge, let's go to the movies!"

Once inside the motion picture theater everything is changed for them. There Joe Doakes is boss. He has paid his money and what he says goes.

The whole world is brought to them, while Joe holds his girl's hand and sits back in enjoyment.

Maybe it's a hot swing band they want. The movies have searched the dance spots and brought it to them. Perhaps they want a swell adventure story—Khyber Pass, Bengal Lancers and all that. The movies have it. Or a homely, touching story of everyday folks. There it is, and Joe and the girl friend have a grand time.

Whatever they want, the movies get it for them. Cameramen go into darkest Africa or wander over the bleak Arctic to get authentic settings.

The best dance teams in the world float before their eyes and Joe feels all felt, while Marge almost swoons. And, if by any chance, it's love they want. . . .

Don't fool yourself—the entertainment of Joe and Margie is the movies' job, and the movies are doing that job extremely well.

The producers of motion pictures ask you especially to see the pictures that are coming to the Daly City Theater this fall. It is fitting that an array of films such as this—the finest that has ever been released in a single season—should reach you on the eve of the Golden Jubilee of motion pictures. They will bring you laughter. . . tears . . . advenure. . . romance. . . LIFE—give you entertainment, relaxation and freedom from care.

Franklin, lieutenant governor candidate, and John Z. Anderson, congressional candidate, will be invited. All Republican candidates voted on in the county will be urged to attend.

Europe's Tinderbox Brought To Screen

Will Czechoslovakia survive?

As an anxious and tense world watches the negotiations of the Sudeten German problem in Czechoslovakia, Hitler requisitions men and war materials from Germany and Austria on an unprecedented scale, as if to warn Europe's democracies of fascism's strength and purpose.

In "Prelude to Conquest," featured episode in the current MARCH OF TIME, playing Sunday at the Daly City Theatre, is told the story of Czechoslovakia's determined and hard-fought stand for democracy in the face of fascist aggression. The film shows the significance of Hitler's current maneuvers, which may be the prelude to Hitler's second Nazi conquest. Conquest of Czechoslovakia is shown by MARCH OF TIME as Hitler's next step in gaining self-sufficiency for his new Germany.

Gets Up Early To Hang Self

"I'm going to get up early tomorrow morning. I have some work to do," Charles E. Williams, about 60, patient at the Peninsula Sanitarium told fellow patients Monday night before going to bed.

What that work was came to light Tuesday morning when a florist found William's body hanging to a rafter in a barn back of the sanitarium.

According to Coroner William F. Crosby's office, the man had climbed on some old rabbit cases, fastened a rope around his neck and then kicked the cases from beneath his feet. The body was discovered by A. Bertucci, proprietor of a flower shop located near the sanitarium.

The body was taken to N. Gray & Co., mortuary in San Francisco, where a brother, J. B. Williams of San Francisco is making funeral arrangements.
